

HANDS-ON COURSE of the Mainz European School of Minimally Invasive Thoracic Surgery

Wednesday, 5th & Thursday, 6th of June 2024

WEDNESDAY: impulse lecture

Prof. Dr. Eric Dominic Roessner, FEBTS &
Dr. Carlos Gálvez, PD Dr. Ioannis Karampinis FEBTS

including live participation in the online lectures of the
MAINZ EUROPEAN SCHOOL of Minimally Invasive Thoracic Surgery

Thursday: Thoracic surgery (live operations) in the Center for Thoracic
Diseases of the University Medical Center Mainz

Dear Colleagues,

The Mainz European School of Minimally Invasive Thoracic Surgery is dedicated to the training and further education of young thoracic surgeons with a special focus on uniportal VATS in an ERAS concept. Therefore, in addition to the well-known online courses, we are pleased to be able to offer a hands-on course here at the Thoracic Surgery Center at the University Medical Center in Mainz.

The hands-on workshop is integrated into the Mainz School's lecture series, so we are pleased to also welcome Dr. Gálvez & Dr. Karampinis as speaker and tutor. The course offers a live introduction to uVATS techniques and a detailed discussion of sublobar resection.

We look forward to welcome you at the hands-on course.

We kindly ask you to register at info@revolution.de

Best regards,

Eric Roessner & Carlos Gálvez Muñoz & Ioannis Karampinis
